Policy DCR Outcomes

- Meet — Improve the quality and accuracy of medical certificates of cause of death (MCCDs)
- Meet — Quicker certification of death and reduces costs
- Meet — Allow for the cause of death to be proposed and scrutinised within 24-48 hours after the death (TBD)(outcome TBD)
- Meet — Improve the quality of cause of death information for public health surveillance
- Partially meet — There is a clear, auditable record of the changes made to the proposed cause of death and any advice given
- Partially meet — Strengthen safeguards for the public
- Partially meet — Easier identification of trends and unusual patterns to enable local learning, and changes to practise and procedures

Key

- Meet — Meet outcome
- Partially meet — Partially meet outcome
- Does not meet — Will not meet outcome
- Priority outcome

Outcome | Meet

At anytime and anywhere, the right attending practitioners (or when appropriate, the medical examiner) can easily record the proposed cause of death

Outcome | Meet

Attending practitioners feel confident in proposing and recording the right cause of death

User need | Meet

As a Welsh AP that is practicing in Wales, I need an MCCD that is in Welsh

User need | Partially meet

As a user I need help to complete the service so that the death can be registered quickly and without frustration.

Outcome | Meet

At anytime, anywhere the right medical examiner can access the right cause of death to be reviewed

Outcome | Meet

A medical examiner can propose changes to the cause of death and the attending practitioner can access and make those changes easily.

User need | Meet

As a user I need a service that I trust so that I feel confident when disclosing my personal information and patient's personal information that the data will not be mishandled.

Outcome | Meet

Medical examiners and medical examiner officers get the data they need to review a cause of death

Outcome | Meet

A medical examiner is confident that the proposed cause of death is accurate and that there has been no malpractice

Outcome | Partially meet

Attending practitioners and medical examiners refer the correct cases to the coroner

Outcome | Meet

The representative know that the death has been certified and that they can register a death

Outcome | Meet

Registrars get the information they need to to register the death in the within 5 days of the following medical examiner sign off

Service option 1:
Digital MCCD

Main service features

- Digital form
- CIS2 Integration
- Log-in for all users
- Automated notifications
